

**CATH-TECH™
RECTIFIERS
and Equipment**

**CUSTOM
OIL COOLED
PROCESSOR
CONTROLLED
CATHODIC PROTECTION
RECTIFIERS**

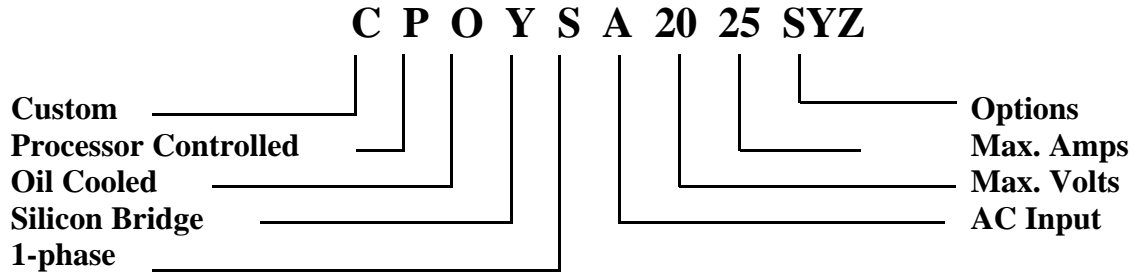

FEATURES

- Precision Crafted by CATH-TECH™
 - Single or three-phase AC input
 - Processor Controlled
 - Remote Control
 - Remote Monitoring
 - Data logging
 - Voltage/current/potential control
 - Heat sinked silicon stacks
 - Electrostatic shield between primary and secondary of transformer
 - Magnetic breakers on primary
 - Welded steel standard
 - Fusion bonded polyester finish
 - Digital metering standard
 - Lightning protection standard

How to Order

Ordering Code Example

OPTIONS

of phases:

S = 1 Phase Y = 3 phase

AC Input:

A	115/120 volts	60 Hz	1 Phase
B	120/240 volts	60 Hz	1 Phase
C	240 Volts	50/60 Hz	1 Phase
D	Other specify		

Cabinet:

A	=	Anodized Aluminum
S	=	Stainless Steel
X	=	Other than standard Gauge
Y	=	Other than standard finish

Other Features:

L	=	Heavy Duty Lightning Protection
E	=	Efficiency Filter
K	=	Signal Light
Y	=	50 Hz input Frequency
Z	=	Other features specify
